Enterprise Content Management (ECM) – Leadership

The Leadership scholarship is for a city that has had an Electronic Document/Records Management system in place for more than 2 years. Applicants must be able to summarize how they have led their organizations in expanding the use of such a system, by expanding functionality such as making archived records accessible via the web, or by bringing on additional departments, or in creating sound enterprise-wide records management policies/communication, etc.

Enterprise Content Management (ECM) – Records Retention

The Records Retention Management scholarship is for a city that has had an Electronic Document/Records Management system in place for more than 2 years and that has extended the functionality of it to track and manage records retention schedules. These cities have taken it to the next level and are not only archiving but are actively managing the life cycles of records in a very efficient way.

Enterprise Content Management (ECM) – Business Process Automation

The Business Process Automation scholarship is for a city that has had an Electronic Document/Records Management system in place for more than 2 years and that has extended the functionality of its automated business processes with tools such as Automated Capture, Electronic Forms & Workflow modules. These cities have taken it to the next level and are not only archiving, but are increasing efficiency by adopting the newer technology and working as a team with IT and other departments to configure smart solutions that automate filing, approval, integration with other solutions, and business process steps that are typically handled manually.
